### PREFACE

This report is one in a series on Soviet Ground Force and logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1Plc (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

25X1D

A secured storage area is located 3.5 kilometers (km) east of Slonim (53-05N 025-20E). It is served by a dirt access road which connects with a probable all-weather road extending from Slonim to Baranovichi. The storage area is not rail served although a single track rail line connecting Slonim and Baranovichi is located 0.5 km south. The Slonim Training Area (TA-1) is located approximately 2 km south. The Slonim Army Barracks and Ordnance Depot (AL-2) is located approximately 4 km southwest. There is no direct road connection between the installations. The Slonim Army Barracks Albertin (AL-1) has been abandoned and the area returned to civilian use.

The storage area covers approximately 85 acres and includes 76 storage buildings and 11 support buildings. It is secured by a wall on three sides with undetermined security along the stream bed.

The installation was covered by TALENT photography in [REDACTED] and 10 KEYHOLE Missions between [REDACTED]. Comparative analysis revealed an increase from three to six large storage buildings and the addition of 65 small storage buildings from [REDACTED]. There is no evidence of re-vetting on any coverage.

The military significance of this installation cannot be determined.

DESCRIPTION OF INSTALLATION

25X1D

25X1D

Road Service

The installation is served by a dirt access road which joins a probable all-weather road extending from Slonim to Baranovichi.

General Storage Area

Area E1 contains 70 general storage buildings approximately 20 by 40 ft. [REDACTED] coverage revealed five of these buildings, [REDACTED] coverage revealed 20, and [REDACTED] coverage revealed 70.

Area E2 contains six general storage buildings approximately 20 by 40 ft. [REDACTED] coverage revealed three of these buildings completed, and construction of a fourth. [REDACTED] coverage revealed all six buildings.

Support Buildings

Area H contains 11 support buildings, eight directly south of a secured area. Three were in the secured area and under construction in [REDACTED].
